Title of the Article: "Indoors Fitness Training Monitoring based on OpenPose"

Author(s): J.Haoran, S. Karungaru, & K. Terada

DOI: <https://doi.org/10.46947/joaasr632024947>

We regret to announce the retraction of the article titled "Indoors Fitness Training Monitoring based on OpenPose" by J.Haoran, S. Karungaru, & K. Terada, which was originally published in volume [Vol. 6 No. 3 \(2024\): JOURNAL OF ADVANCED APPLIED SCIENTIFIC RESEARCH-ICKE-2023](#) on 30-05-2024.

This retraction follows several unresolved issues that arose after publication:

- 1. Failure to Provide Valid Justification for Reference Changes:** The author(s) requested significant changes to the references in the article but failed to provide the necessary and valid justification for these changes in the required format. Despite multiple requests for clarification, the justification provided was insufficient. Given the importance of proper referencing for the accuracy and credibility of academic work, this issue raised serious concerns.
- 2. Image Duplication Detected:** During the post-publication review, it was discovered that some images in the article had been duplicated from previously published papers. This raised significant concerns regarding the integrity and originality of the data presented in the publication.

The authors had previously requested retraction of the article if their proposed reference changes were not accepted. Given this request and the issues identified, we have decided to proceed with the retraction of the article.

We sincerely apologize to our readers for any inconvenience caused by this retraction. Our commitment to maintaining the highest standards of scholarly publication remains steadfast, and we will continue to ensure that all content published in JOURNAL OF ADVANCED APPLIED SCIENTIFIC RESEARCH adheres to these rigorous standards.
